EXPERIENCE

Asgard System, Inc.   **Taipei, Taiwan**
Software Engineer   *Oct 2020 - PRESENT*
- Learned Vue.js within a month and designed and implemented various front-end components
- Contributed to an in-house UI library by creating reusable UI components that increased development efficiency by 30%
- Served as a bridge between frontend, ui/ux designers and backend developers
- Led the frontend aspect of a project for a client with over 200 users spanning multiple applications
- Added new API endpoints to improve UI experience and overall app functionality

Asgard System, Inc.   **Taipei, Taiwan**
Software Engineer Intern   *June 2020 - Sep 2020*
- Designed and implemented a feature-rich user interface using React and Redux to handle and display data
- Developed reusable functions and integrated them with existing Javascript libraries to streamline the frontend development process and decrease development time by over 40%

EDUCATION

University of California, San Diego   **San Diego, CA**
B.S. Nanoengineering , 3.62 GPA   *June 2019*
